**Remarks:**

**1. Wealth Accumulation Switching Option and its portfolio ratio**

Switching option(s)	"Stable Asset Account" allocation	Allocation of the cash value of Reversionary Bonus (if any) and cash value of Terminal Bonus (if any)
Advance	0%	100%
Balanced	40%	60%
Conservative	80%	20%

"Stable Asset Account Allocation" = the value of "Stable Asset Account" ÷ (cash value of Reversionary Bonus (if any) + cash value of Terminal Bonus (if any) + value of Stable Asset Account) x 100%

The Switching Option is pre-set as "Advance" upon policy issuance until the first-time exercise of "Wealth Accumulation Switching Option". You may exercise the Wealth Accumulation Switching Option within 30 calendar days before or after a policy anniversary which must be on or after the 15th policy anniversary to adjust the Switching Option of the basic plan of the policy to achieve Stable Asset Account Allocation at your desire, subject to the following conditions: (i) the Switching Option applied for must be different from the default Switching Option of the Basic Plan of the policy (for the first exercise of this option) or the latest Switching Option as shown in our record (if you have already exercised this option before); (ii) except the first time of exercise of this option, the switch date of each subsequent request must be separated by a period of not less than 1 year from the switch date of the preceding exercise of this option; and (iii) all indebtedness must be fully settled before exercising this option. Once the Wealth Accumulation Switching Option is exercised, we will correspondingly adjust the amount of any future cash values and face values of Reversionary Bonus and Terminal Bonus at a rate to be determined by us based on the change(s) of the cash values of Reversionary Bonus and Terminal Bonus. Once the Company approves the request of Wealth Accumulation Switching Option, we will determine the value of Stable Asset Account immediately following such exercise of Wealth Accumulation Switching Option ("Target Value"). The Target Value equals the product of Stable Asset Account Allocation of the elected Switching Option and the aggregate of (i) the accumulated value of Stable Asset Account (if any) immediately before such exercise ("Existing Value"); and (ii) the cash values of Reversionary Bonus and Terminal Bonus immediately before such exercise. We will then adjust the balance of Stable Asset Account from the Existing Value to the Target Value at the switch date, which in the case that the Existing Value is lower than the Target Value, the deficit will be resolved by transferring the latest cash value of Reversionary Bonus (if any) and cash value of Terminal Bonus (if any) to the Stable Asset Account; or in the case that the Existing Value is higher than the Target Value, the surplus from the Stable Asset Account will become the cash value of Reversionary Bonus and cash value of Terminal Bonus. Please refer to the Policy Provisions for more details of the Wealth Accumulation Switching Option.

- At the end of the 3<sup>rd</sup> Policy Year or any Policy anniversary thereafter and while the policy is in effect, you may, subject to the prevailing rules of the Company, apply to change the policy currency of the basic plan of the policy to a different currency ("New Policy Currency") through converting the existing basic plan of the policy to a designated new plan ("Designated Plan") denominated in the New Policy Currency that is available and determined by us without providing any evidence of insurability, subject to the following conditions: (i) successfully submitted the application to change the policy currency to the New Policy Currency ("Currency Switch") within 60 days immediately preceding any policy anniversary on which the Currency Switch Option is exercised; (ii) all premiums due and payable under the policy must be settled and any indebtedness must be fully repaid; (iii) the relevant Unit of the Designated Plan of the policy following the Currency Switch must not be less than the minimum Unit amount we permit at the time of your request; (iv) no Premium Holiday is in effect under the basic plan of the policy at the time of the Currency Switch; (v) no application for exercising Policy Split Option, Wealth Accumulation Switching Option or Change of Insured Option is in progress, and no claim is in progress under the basic plan of the policy upon request exercising this option; (vi) your request for exercising the Currency Switch Option cannot be changed or withdrawn once it is submitted; and (vii) Currency Switch Option can only be exercised once during a Policy Year under the policy.
