## FTLife launching "Go Green Go Digital" Sim Card Donation Scheme

Joining force with our customers to help underprivileged children learn online

FTLife cares for sustainable community development and is committed to promoting and implementing green living. In the recent years, online learning has become more and more common during the pandemic. That inspires FTLife to launch the "Go Green Go Digital" Sim Card Donation Scheme to provide extra mobile data to underprivileged children, enabling them to broaden their horizon through online learning.

From now until 31 December 2021, for each of the successful registration and switch to e-policies and e-notifications (e-Service) by any FTLife customer, FTLife will donate a SIM card to Principal Chan Free Tutorial World. By switching to e-Service, you will be part of a collective effort to lessen the burden of the grassroot families and contribute to saving the environment by reducing the use of paper.

The "Reach FTLife" app provides an one-stop e-Service platform that includes flexi premium payment, speedy e-Claims service, and "e-Connect" Health Platform. It enables you to manage your policies easily anytime, anywhere.

### The three advantages of switching to e-Service

Save the environment  
by reducing the use  
of paper

Easy access  
to policy records

Instant update  
for latest news and information

### How to switch to e-policies and e-notifications?

1 Log into  
"Reach FTLife" app

2 Click "accept"  
to choose e-Service

3 Click "Policy Inquiry"  
to access policy  
information instantly

Download "Reach FTLife" app now  
We look forward to creating shared  
value with all of you!
