

Aberdeen Global - Emerging Markets Smaller Companies Fund

Class A - 2 Acc

Performance Data and Analytics to 31 December 2016

Important Information

- The Fund invests in equities and equity-related securities of smaller companies in emerging market countries. Smaller Companies are defined as companies with a market capitalisation in the Base Currency of the Fund, as at the date of investment, of under US\$5 billion.
- The Fund invests in emerging markets which tend to be more volatile and is subject to higher political, regulatory, credit and liquidity risks.
- Smaller companies are subject to the risk of greater vulnerability, and are generally of lower liquidity and greater volatility than larger companies.
- Investment in this fund may involve a high degree of risk and may not be suitable for all investors. It is possible that the entire value of the investment could be lost.
- Investors are responsible for their investment decisions and should ensure that the intermediary has advised on fund's suitability and consistency with their investment objective. If in doubt, please seek independent financial and professional advice.
- Investors should not invest in this Fund based solely on this document and should read the relevant offering documents (particularly the investment policies and risk factors) for more details before investing.

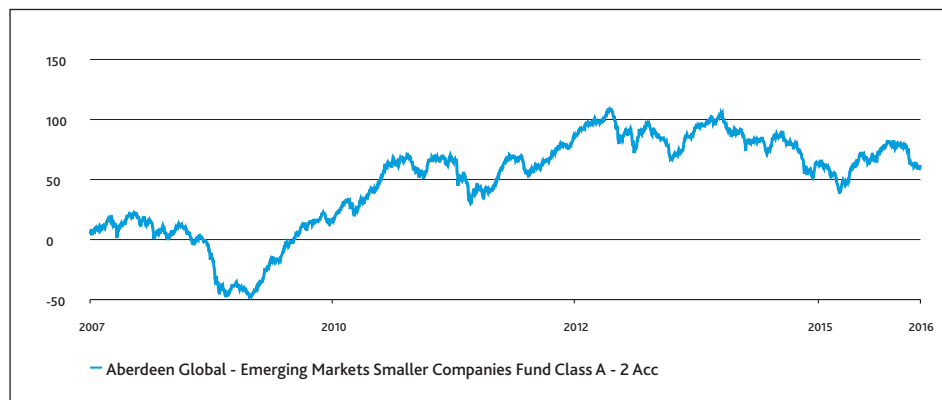

Investment objective

To achieve long-term total return by investing at least two-thirds of the Fund's assets in equities and equity-related securities of Smaller Companies with their registered office in an Emerging Market country; and/or Smaller Companies which have the reponderance of their business activities in an Emerging Market country; and/or holding companies that have the preponderance of their assets in Smaller Companies with their registered office in an Emerging Market country.

For the purpose of this Fund, Smaller Companies are defined as companies with a market capitalisation in the Base Currency of the Fund, as at the date of investment, of under US\$5 billion.

Emerging Market refers to any country that is included in the MSCI Emerging Markets Index or composite thereof (or any successor index, if revised), or any country classified by the World Bank as a low to upper middle income country.

Annualised Tracking Error	8.23	7.36

Source: Aberdeen Asset Management, total return, Gross of Fees, BPSS, Datastream, USD.

Please note the risk analytics figures are calculated on gross returns whereas the performance figures are based on net asset value (NAV) returns. In addition, the risk analytics figures lag the performance figures by one month. It should be noted that the figures provided regarding risk would be adjusted if fund fees and expenses were included.

Standard deviation measures historical volatility. Beta is a measure of the volatility of a portfolio in comparison to a benchmark index. Sharpe ratio measures risk-adjusted performance. Tracking error measures the divergence between the price behavior of a position or a portfolio and the price behavior of a benchmark.
