- The Fund may be subject to risks, such as investment, equities, liquidity, counterparty and currency risks. The Fund invests primarily in specific countries and may involve higher concentration risks than a more diversified portfolio. The Fund may invest in emerging markets and is subject to additional risks, including liquidity risks, lower standards of corporate governance, political and higher volatility.
- The Fund may have indirect exposure to Chinese securities which may be subject to withholding tax on realised capital gains. With the uncertainty in the PRC tax rules and the possibility of taxes being applied retroactively, any tax provision made by the Fund or in any financial instruments may be inadequate and result in a loss to the Fund.
- The Fund may invest in derivatives for investment purposes or for efficient portfolio management; such investments may result in higher volatility or a significant loss in the Fund's assets within a short period of time.
- Dividends may be paid out of capital gains at the discretion of the Managers which would effectively represent paying dividend out of capital. This amounts to a return or withdrawal of part of an investor's original investment or any capital gains attributable to that original investment. Payment of dividends may result in an immediate reduction of the net asset value of the Fund.
- Investors may suffer substantial loss of their investments in the Fund.

## Investment Objectives<sup>1</sup>

The objective of the Fund is to achieve long-term capital growth in the value of assets by investing in companies in Asia which the Managers believe will benefit from the economic growth and development of the region. The policy of the Managers is to invest primarily in equities of companies quoted or traded and incorporated in the stock exchanges of countries which are members of the Association of South-East Asian Nations (ASEAN), or which have a significant proportion of their assets or other interests in those countries. The members of ASEAN include Singapore, Thailand, the Philippines, Malaysia, Indonesia and Vietnam.
