

- The Fund is subject to risks, such as investment, equities and equity-related securities, liquidity, counterparty, currency risks and the risks of investing in small and mid-capitalisation companies.
- The Fund's investment may be concentrated in the Hong Kong and China markets and the value of the Fund may be more volatile. Investing in emerging markets may involve increased risks, including liquidity, currency/currency control, political and economic uncertainties, legal and taxation, settlement, custody and volatility risks.
- The Fund may invest in derivatives for investment or efficient portfolio management which may involve counterparty/credit, liquidity, valuation, volatility and over-the-counter transaction risks. Exposure to derivatives may lead to a high risk of significant loss by the Fund.
- Dividends may be paid out of unrealised capital gains at the discretion of the Manager which would effectively represent paying dividend out of capital. This amounts to a return or withdrawal of part of an investor's original investment or any capital gains attributable to that original investment. Payment of dividends may result in an immediate reduction of the net asset value of the Fund per unit.
- Investors may suffer substantial loss of their investments in the Fund.
