

Performance, Top Holdings, Portfolio Breakdowns and Characteristics, and Net Assets as at 31-Mar-2019. All other data as at 10-Apr-2019.

IMPORTANT:

- The Fund's investments in equities could incur significant losses due to higher fluctuation of equity values. The Fund invests in certain emerging markets and may be subject to political, tax, economic, social and foreign exchange risks. The Fund's investments are concentrated in Latin America. This may result in greater volatility than more broad-based investments.
- The Fund is subject to currency risk, foreign investments restrictions risk, small-cap companies' volatility and liquidity risks and securities lending counterparty risk.
- The Fund may use derivatives for hedging and for investment purposes. However, usage for investment purposes will not be extensive. The Fund may suffer losses from its derivatives usage.
- The value of the Fund can be volatile and can go down substantially within a short period of time. It is possible that a certain amount of your investment could be lost.
- Investors should not make investment decisions based on this document alone. Investors should refer to the Prospectus and Key Facts Statement for details including risk factors.

INVESTMENT OBJECTIVE

The Latin American Fund seeks to maximise total return. The Fund invests at least 70% of its total assets in the equity securities of companies domiciled in, or exercising the predominant part of their economic activity in, Latin America.

SECTOR BREAKDOWN (%)

Negative weightings may result from specific circumstances (including timing differences between trade and settlement dates of securities purchased by the funds) and/or the use of certain financial instruments, including derivatives, which may be used to gain or reduce market exposure and/or risk management. Allocations are subject to change. Due to rounding, the total may not be equal to 100 %.

TOP COUNTRIES (%)

UK exposure is Antofagasta - a London-listed Chilean copper company.

Geographic exposure relates principally to the domicile of the issuers of the securities held in the product, added together and then expressed as a percentage of the product's total holdings. However, in some instances it can reflect the country where the issuer of the securities carries out much of their business.
