Research Driven Results

Our commitment and disciplined investment approach is recognised by investors worldwide. We believe that assets are best managed by specialists located in the markets and regions in which they invest. Having over 650 investment professionals globally provides fund managers with direct access to local market knowledge. Moreover, through original research and company visits, we are able to identify those companies with superior long-term potential, and those that can react quickly to market changes. This philosophy has proven extremely successful over the years, resulting in numerous performance awards and high ratings from independent agencies.
